Red shield – No disk space left

If there's no disk space left, there's four option of how the problem can be solved:
 Adding extra space to the license Removing file selections Removing deleted files Lowering the amount of versions stored on the server

1. Adding extra space to the license

Ask your provider to add extra space to your license.

2. Removing file selections

Open the program by clicking on the Online backup logo or click on the logo once with the right mouse button. Choose "Open" from the menu.

Backup Files Settings	1. Choose "Files" from the menu
Choose items and files to backup	2. Remove files selections
 Desktop Favorites My Documents Outlook C:\ D:\ E:\ F:\ 	3. Lastly save
Calculate Usage Folders files:	
SAVE 3 RESET	

	1. Choose "Delete"
REMOVE DELETED	-00-
You have removed these files from backup. Do you wa delete them from backup and free space? Notice: It m take some time for the server to delete all the files ar folders. Disk usage will be updated after a delay.	nt to ay nd
Outlook	
DELETE DON'T DELETE	

3. Removing deleted files

Open the program by clicking on the Online backup logo or click on the logo once with the right mouse button. Choose "Open" from the menu.

Backup Timing Settings	1. Choose "Backup" from the menu
Last backup Time 7/13/2011 2:36:30 PM Size	2. Choose "Restore files"
Files (changed/total) 0/1 Backup now Restore Files	
CLOSE	

RESTORE FILES		1. Choose "Remove deleted"
• Outlook • • • F: • • • C: • • • E: • • • • deleted
